Culture: 'Missione Comune 2026' launched with €50 million for public heritage

The Italian Ministry of Culture has launched **Missione Comune 2026**, a programme allocating €50 million to support public cultural heritage managed by local authorities. The initiative includes financial measures such as zero-interest loans for municipalities, provinces and regions.

- **Funding and goal:** an initial €50 million aimed at leveraging more than €130 million in total investments.
- **Areas of intervention:** protection, restoration, safety upgrades and digitization of public cultural assets.
- **Implementation:** financial backing will involve the Istituto per il Credito Sportivo e Culturale S.p.A., with tenders and agreements addressed to local authorities.

The programme seeks to enable local conservation and enhancement projects while promoting modernization of cultural services through digital initiatives. Operational details and access requirements will be published by the Ministry of Culture; interested local bodies should follow official channels for calls and application timelines.
